CAREER OBJECTIVE

A motivated Web Developer with expertise in React.js and JavaScript, seeking opportunities to contribute to dynamic projects. Passionate about coding, I am dedicated to continuous learning and creating intuitive, user-friendly web applications.

TECHNICAL SKILLS

- **Front-End :** HTML, CSS, Tailwind CSS, Bootstrap, JavaScript, TypeScript, React.js, Next.JS
- **Back-End :** Node.js, Express.js, MongoDB
- **Tools & Technologies:** Git, GitHub, VS Code, npm, RESTful APIs
- **Languages:** JavaScript, HTML, CSS

INDIVIDUAL PROJECTS

1.JOLLYHOUSE [Live link] [Github client] [Github server]
JolyHouse (BMS) Site

- **User-Friendly Interface:** Developed with React, TailwindCSS, and DaisyUI.
- **Efficient Data Management:** Powered by MongoDB for quick data retrieval.
- **Seamless Deployment:** Deployed on Netlify using Npm for reliable performance.

2. StudyBuddy [Live link] [Github client] [Github server]
StudyBuddy-GroupStudy Site

- **User-Friendly Interface:** Crafted with React, TailwindCSS, and DaisyUI for responsive design.
- **Efficient Data Management:** Utilized MongoDB for robust storage and quick data access.
- **Seamless Deployment:** Deployed on Netlify with Npm for reliable performance.

TEAM PROJECTS

1. WayGO [Live link] [Github client]
WayGO Bus Ticket Management

- **User-Friendly Interface:** Built with Next.js, TailwindCSS, and DaisyUI for a smooth experience.
- **Efficient Data Management:** Uses MongoDB for fast data access and storage.
- **Seamless Deployment:** Deployed with NPM for optimal performance and reliability.
